

BORA/B SPECIFICATIONS

Tower dimensions:	length mm. 1.100; width mm. 1.160; height mm.2.460
Working bench dimensions:	lunghezza mm. 2.000; larghezza mm. 1.100; altezza mm. 900
Exhaust fan:	centrifugal kind
Exhaust fan revolutions:	2.040 per minute
Motor:	power Hp.7,5 kind S
Range:	mc./h. (cubic meters per hour) 9.500
Electrofan total pressure:	80 mm./column H ₂ O
Depuration circuit:	by water with centrifugal power
Prevalence (head):	120-240 mm. water
Water capacity:	about 300 liters
Dust demolition average:	98,60 %
Noise:	in compliance with regulations
Air speed in entrance:	m./sec. (meters per second) 4,5
Load losses aspiration circuit:	mm. H ₂ O 18
Air speed of discharged:	braked with diffuser 0,8 meters per second
Discharging pipe:	diameter 2"
Weight:	Kg. 750
Extraordinary maintenance:	basin cleaning every 4 months
Guarantee:	12 months
